Last Updated Sunday, 19 March 2006

The recycling containers by the elevator in the garage are not for trash. Responsible recycling takes little effort, saves the association money, and helps the environment. The clearly marked recycling containers have become contaminated with trash and will have to be emptied at an additional cost to the Association. Only household trash and recycling will be picked up at Parc Crossings. When moving or doing spring cleaning, please dispose trash properly in the garbage dumpsters, for furniture or large items that need to be disposed, please call Foothill Disposal for a free pick-up at (650) 967-3034.
